Dear Mr Hoydal,

In reference to the letter of 22 September 2005, no SCH 05/34, concerning annual reports on inspection and surveillance activities in the NEAFC RA, I would like to inform you that during the period from 1 July 2004 to 30 June 2005 there were some problems with providing controls of NCP vessels, as for example problems with landing of vessel "Sunny Jane" where the matter was found out too late. After that incident we took steps to avoid that kind of situations in the future.

At the same time I inform that there were no inspections at sea and in ports of Polish vessel which undertook fishery in the NEAFC area.

Sincerely yours,

Grzegorz Łukasiewicz  
Director
