Note: The tanker RAZNA c/s ELPI3 was not observed servicing NCP vessels, but was warned by the Icelandic Coast Guard on the 30th of April 2006 that servicing NCP vessels could result in placing the RAZNA on the IUU list and what the consequences could be. RAZNA which was preparing to fuel the IUU vessel DOLPHIN c/s 4LEQ stopped that operation and asked for name and numbers of other IUU vessels in the area. On the 3rd of May 2006 RAZNA was observed steaming SA inside the Icelandic EEZ and when contacted by the Icelandic Coast Guard she informed that destination was Holland and further that the operator had given instructions to the captain not to service IUU vessels.

The reefer POLESTAR c/s 3EWP7 was observed far south of the main fishing area where it was engaged in transshipment operation with the CARMEN c/s 4LSK on the 9th of June and the ULLA c/s 4LLA on the 21st of June. On the 19th of July 2006 POLESTAR was observed again, and then bound for Panama. POLESTAR informed that she had recently taken cargo from the DOLPHIN c/s 4LEQ. The POLESTAR was repeatedly warned about its illegal activity and its consequences.

All the IUU fishing vessels were at every sighting informed about their illegal activity and a standardized text was transmitted. *“You have been observed engaged in fishing activities in the Regulatory Area of the North East Atlantic Fisheries Commission NEAFC. This will be reported to the authorities of your flag state and all states that are members of NEAFC. Your activities are undermining the Recommendation established under the NEAFC Convention”.* These vessels were on numerous occasions asked if inspectors could board but that was always refused.
