

2. NEAFC further notes that by way of the said Agreed Record, the aforementioned Parties agreed to restrict their fishery on the herring stock in 2001 to a maximum limit of 850,000 tonnes on the basis of specified quotas and that this was done on the basis of an overall TAC of 851,500 tonnes in 2001.

3. In accordance with Article 5 of the Convention on Future Multilateral Co-operation in North-East Atlantic Fisheries, NEAFC recommends the following measure for the Norwegian Spring Spawning Herring (Atlanto-Scandian Herring) Stock, hereinafter referred to as herring, for 2001.

(a) In order to ensure consistency and compatibility with the said Agreed Record, NEAFC hereby establishes an allowable catch limitation of 76,500 tonnes of herring for 2001 in waters beyond the areas of national fisheries jurisdiction of the Contracting Parties.

(b) This allowable catch limitation shall be allocated as follows:

Denmark (on behalf of the Faroe Islands and Greenland) 15,000 tonnes (*)
The European Community 15,000 tonnes (*)
Iceland 15,000 tonnes (*)
Norway 15,000 tonnes (*)
Poland 1,500 tonnes
The Russian Federation 15,000 tonnes (*)

The allocations marked (*) take account of unspecified transfers between the Parties to the said Agreed Record.

Catches taken under these Allocations shall be deducted from quotas allocated to Contracting Parties representing a Party to the said Agreed Record.

4. National quotas referred to in paragraph 2 may be fished in the areas defined in paragraph 3 (a).
