Recommendation 1:2015

Recommendation on Conservation and Management Measures for Deep and Shallow Pelagic Redfish in the Irminger Sea and adjacent waters in the NEAFC Convention Area for 2015

As proposed by Denmark (in respect of the Faroe Islands and Greenland), the European Union and Iceland, the Commission hereby adopts the following recommendation pursuant to Articles 5 and 6 of the Convention:

Taking note of the most recent scientific advice from ICES on management measures for the deep and shallow redfish stocks, as well as advice on stock identity;

Considering that, in line with this scientific advice, it remains essential to significantly reduce the outtake of deep pelagic redfish and prohibit fishing on shallow pelagic redfish in the Irminger Sea and adjacent waters.

Considering the recent changes in fishing patterns for both deep pelagic and shallow pelagic redfish in the Irminger Sea and adjacent waters;

Recognising the need to improve current management measures for deep pelagic redfish and shallow pelagic redfish in the Irminger Sea and adjacent waters with the aim of achieving long-term stability;

Recognising however that an interim management measure for deep pelagic redfish in 2015 in the Irminger Sea and adjacent waters is required, based on the ICES advice recommending a catch level of less than 10,000 tonnes;

Recognising that the north-eastern area of the Irminger Sea and adjacent waters are important areas of larval extrusion, and that there is a particular need to protect the redfish and promote its recovery;

Agreeing that, in order to ensure this protection and subsequent recovery, it is also necessary to adopt effective control measures for this fishery;

In accordance with Articles 5 and 6 of the Convention, the Contracting Parties have agreed the following interim management measure for the pelagic redfish fisheries in the Irminger Sea and adjacent waters to apply for 2015:
Recommendation 1:2015

1. TAC and quota allocation between Contracting Parties for the deep pelagic fishery

   a. The total allowable catches in the deep pelagic fishery in the Irminger Sea and adjacent waters by Contracting Parties in 2015 shall not exceed 9,500 tonnes.

   b. The Contracting Parties are allocated the following quota shares of the established TACs for 2015. These percentage shares are agreed on an ad hoc basis for 2015 and do not prejudice quota allocation schemes for subsequent periods.

      i. Denmark, in respect of the Faroe Islands and Greenland (Faroe Islands  639 tonnes) (Greenland  2,114 tonnes) 2,753 tonnes
      ii. European Union 1,468 tonnes
      iii. Iceland 2,947 tonnes
      iv. Norway 366 tonnes
      v. Russian Federation 1,967 tonnes

   c. For 2015, each Party may transfer to 2016 unutilised quantities of up to 5% of the quota allocated to that Party for 2015. The quantity transferred shall be in addition to the quota allocated to the Party concerned in 2016. This quantity cannot be transferred further to the quotas for subsequent years.

   d. Each Party may authorise fishing by its vessels of up to 5% beyond the quota allocated to that Party in 2015. All quantities fished beyond the allocated quota for 2015 shall be deducted from that Party’s quota allocated for 2016.

   e. Prior to the start of the fishing season, and in any event by 1 May, the Parties shall notify each other and the NEAFC Secretariat of the agreed transfers of quotas between the Parties.

   f. The Parties will provide information regarding quotas and catches in the format set out in the Appendix to this interim measure. Each Party shall, by 1 May 2015, provide updated information to the NEAFC regarding their total catches in 2014, on any allocation of quotas to other Parties in 2014, and on their total provisional catches in 2015. The NEAFC Secretariat shall forward this information as soon as possible to all Parties Contracting Parties.

2. Authorised fishing period

   To enhance the protection of areas of larval extrusion, fisheries shall not commence prior to 10 May and shall not continue beyond 1 July.

3. TAC for the shallow pelagic fishery

   Catches in the shallow pelagic fishery in the Irminger Sea and adjacent waters should take place outside the area referred in paragraph 4 of this measure. In accordance with the latest advice from ICES and in the absence of any agreed recovery plan, there shall be no fishery during 2015 in the NEAFC Convention Area. NAFO shall be informed of this prohibition. Fisheries for future years will depend upon the establishment of a recovery plan for the shallow redfish in the Irminger Sea and adjacent waters, as well as on any new scientific advice.
4. Authorised fishing areas for the deep pelagic fishery

Catches in the deep pelagic fishery in the Irminger Sea and adjacent waters referred to in paragraph 1 shall be conducted for 2015 within an area bounded by the lines joining the following coordinates:

5. Scientific research

In addition to ICES co-ordinated surveys, Contracting Parties may conduct scientific research with the aim of improving scientific knowledge of the redfish. They may set aside a part of their respective quota for scientific purposes. Catches taken as a part of such scientific research exercise shall be counted against the Contracting Party's quotas as set out in paragraphs 1 and 3 of this measure.

6. Participation in the fishery

a. Only vessels flying the flag of a NEAFC Contracting Party, authorised by their flag State to fish for redfish in the NEAFC Convention Area, shall be entitled to participate in these fisheries.

b. The authorisation to fish for redfish in the Regulatory Area is only valid if the information transmitted in accordance with paragraph 7 of this Recommendation, as well as with Articles 11, 12 and 13 of the Scheme of Control and Enforcement (the Scheme), is made available to the Secretary in line with Article 14 of the said Scheme.

7. Reporting requirements

a. Reports shall be made to the NEAFC Secretariat in accordance with the Scheme and, in particular, with Article 12 (Communication of catches) and Article 14
Recommendation 1:2015

(Communication to the Secretary) of the Scheme. This information shall be made accessible for appropriate representatives of the Contracting Parties, including inspectors, on the secure site of the NEAFC website.

b. Fishing vessels shall report their catches on a daily basis. The catch report shall be transmitted after the fishing operations of that calendar day have been completed and no later than 12:00 UTC of the following day. The catches on board taken since the last communication of catches shall be indicated in the report.

c. The Secretariat shall, on a weekly basis, compile a table for each Contracting Party, indicating the total quota for each Party as well as the catch already taken from that quota, based on the catch reports received from the fishing vessels. When 50% of the quota established in paragraph 1(c) is taken, such tables shall be compiled daily. The tables shall be forwarded without delay to all Contracting Parties and to the inspectors via the NEAFC website. The tables shall give details for each vessel indicating their daily catches. This provision derogates from Article 14.3 of the Scheme.

d. To further ensure prompt reporting, the Secretariat shall monitor on a daily basis the reports from each vessel and notify all Contracting Parties without delay if a vessel has not fulfilled its obligations according to paragraph 7 (b) or if the required reports are not available at the Secretariat according to article 8 of this measure for inspection purposes.

e. In accordance with Article 9 of the Scheme, masters of fishing vessels shall record the fishing depth in their fishing logbooks.

f. All receivers of fish shall ensure that all quantities are weighed when landed or transhipped. The weight of fish landed in standardised boxes shall be determined using documented sampling methods. Contracting Parties shall report to the Secretariat on a weekly basis the catches landed by their vessels. This information shall be made available to Contracting Parties and to the inspectors on the secure site of the NEAFC website.

8. Inspection and surveillance

a. A Contracting Party may request access to information communicated pursuant to Articles 11, 12 and 13 of the Scheme for the areas where they intend to undertake inspection and surveillance activities. The Secretary shall inform other Contracting Parties and make the information available to the requesting Contracting Party during the fishing season.

b. Contracting Parties shall notify the Secretariat of the systems in place for verifying catches from this fishery, including weighing procedures and inspection of transhipments and landings. PECCOE shall evaluate the effectiveness of these measures.

c. Inspectors from any Contracting Party may accompany the inspectors from another Contracting Party during the inspection of landings or transhipment operations, subject to the consent of the port State, and flag State if different.
Recommendation 1:2015

In order to facilitate this process, the Contracting Party interested in observing an inspection in another Contracting Party's port shall, at the earliest opportunity, notify the flag State\(^1\) of the vessel concerned of its request to have officials present to observe the landing / transhipment of redfish in port.

Upon receiving such a request, the flag State, and port State if different, shall reply as soon as possible and not later than two working days after receiving the request. In the affirmative, the flag State shall, without delay, communicate details of the vessel in question, such as name of port, estimated date and time of arrival of the vessel in port. The request shall be forwarded to the port State, if the operations are due to occur in a port outside the flag State's jurisdiction.

9. **Technical measures**

   a. It is prohibited to use trawls with a mesh size of less than 100 mm.

   b. The conversion factor used in this fishery for gutted and headed presentations, including Japanese cut, shall be 1.70. This conversion factor shall be used for the purposes of this Recommendation and is without prejudice for other purposes.

10. **Development of a long-term management plan**

    During 2015, NEAFC will seek to establish a long-term management plan for redfish in the Irminger Sea and adjacent waters, including appropriate harvest control rules. The objective of any such management plan shall be to establish such levels of catches and fishing effort, which will result in the sustainable exploitation of pelagic redfish in the Irminger Sea and adjacent waters. This long-term management plan should take due account of the interim management measures as set out in this recommendation.

---

\(^1\) In the case of vessels flagged to an EU Member State, the European Commission shall be put in copy of all correspondence.
